

# PSYCHO-CYBERNETICS

*(Programming the Hard Drive of your Mental Computer)*

## Twenty facts of the Sub-conscious mind

1. It is your totally obedient servant.
2. It does all healing of the body.
3. It does not reason or question your command.
4. It will produce what you program into it.
5. It files & remembers every experience of your life.
6. It controls all functions of the body.
7. The greater your belief in it, the better & easier it works.
8. It never judges good or bad, right or wrong, it only obeys.
9. It works 24 hours a day, your entire life.
10. It can be programmed from an outside source.
11. It sends answers, sometimes through hunches.
12. It is the master mechanic of your body.
13. It is a creature of habit.
14. It is programmed by words, thoughts, & mental pictures.
15. It regulates your energy level.
16. It works much better when order and peace prevail.
17. It zeros in on all goals or objectives.
18. It's unaware of time and space; only you control the timelines.
19. It is completely impersonal.
20. The better you understand it, the better you control it.
